Wet Test Certification

Carrier/Customer _____

Terminal _____

Address _____

Trailer # _____

Date of Certification _____

This document certifies the above trailer has completed and passed the annual wet test requirements for overfill protection probes. This certifies the entire operation of the truck overfill protection system is properly wired and the entire system is working properly. The trailer meets the requirement for overall probes to be set where the maximum safe fill is 60 gallons less than the manufactures specified compartment capacity.

Probes tested and set properly	Yes	No
